TCWD's 2017/18 SOCWA Budget Participation Update

December 6, 2017 Finance Committee December 7, 2017 Board meeting

Summary

- At the June 14th Board Meeting SOCWA adopted a budget that increased TCWD's participation by 138%
- TCWD opposed the budget on the grounds it was hastily established without sufficient cost allocation/justification
- TCWD is committed to our participation in SOCWA, but the General Fund budget must be equitable.
- All SOCWA member agencies are committed to continue exploring concepts

Concept

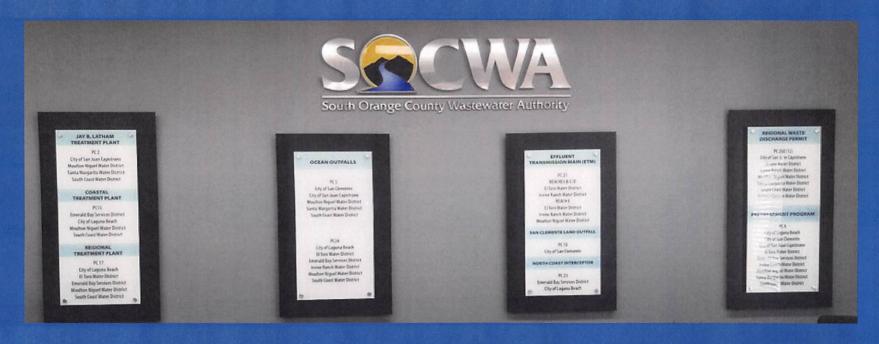

- SOCWA should provide the efficiency of a JPA
- Any agency's participation in SOCWA should provide cost benefits
- There are three main areas of SOCWA Services/Infrastructure
 - Permitting, Treatment and Outfalls
- A fair approach could be allocated based on PC participation

Reducing the Uncertainties of the Current General Fund Approach

Key Considerations

- This approach is based on quantifiable metrics
- The debatable assumptions (%) that led substantial GF increase are largely replaced
- If an Agency's GF budget increased under this concept, their corresponding PC budget will decrease

Agenda Item

Legal Counsel Review: No

Meeting Date: February 13, 2018

TO:

SOCWA Finance Committee

FROM:

Betty Burnett, General Manager

SUBJECT:

Budget Preparation 2018-19 Fiscal Year

Staff is submitting the following information for Finance Committee Review in preparation for the FY 2018-19 Budget:

- 1. Schedule (item distributed on 1/19/18 to Finance Committee included here for further comments of the Committee).
- 2. Fringe Benefit Rate YTD (17/18). This item was distributed on 1/19/18 to Finance Committee and is included here for further comments of the Committee.
- 3. Fringe Benefit Projection (18/19) will be distributed at the February 13, 2018 Committee meeting.
- 4. Budget Assumptions. Item was on 1/19/18 to Finance Committee and is included here for further comments of the Committee. Note that Assumption #3(b) as to FTE FY 2017-18 has been corrected to 64 as noted by Director Collings at the January 19, 2018 meeting ("65" FTE was an error).
- 5. FY 2018-19 O&M Labor Plan (Power Point slides attached hereto).
 - a. Note that staff is providing background information from 2016-17 to present on staffing for discussion.
 - b. Presentation (at meeting) of Operations Staffing as projected and current
- 6. 2016-17 Legal Expenditures (aligns with draft Use Audit)
 - a. Staff will be discussing projected increases in legal expenditures due to hiring of new General Counsel services anticipated in 2018.
- 7. List of requests: IT, Engineering/O&M and Administration.

Recommended Action: Finance Committee review and comments.

Total Operating Budget Assumptions South Orange County Wastewater Authority Fiscal Year 2018-19

Fiscal Year 2018-19 with projections through 2022-23, 5 Years

- 1. The consolidated operations budget is divided into "Functional Departments"
 - a) Operations
 - b) Engineering (Capital and Non-Capital)
 - c) Environmental Compliance and Safety
 - d) Information Technology (IT)
 - e) Administration
 - f) General Fund (shown individually and as a part of Administration)
- 2. The FY Budget establishes the Board approved allocations used for the purpose of collecting the O&M deposits from Member Agencies. After the close of the fiscal year the Use Audit is prepared and the approved allocations are then adjusted to reflect actual labor time spent, actual liquids and solids treated, or actual purpose of the expense accumulated (if incurred for a single agency or group of agencies that is less than a full PC group) ("Actual Expenses"). Actual Expenses will be included in the fiscal year use audit to determine under/over payments by member agencies.
- 3. Each Department Manager provided:
 - a) Headcount requirements for the 5-year budget period, inclusive of new hires, retirements, promotions, succession planning, etc. The staffing plan takes into account known and anticipated retirements, and costs for labor are projected based on filling open positions in operations with entry level staff unless vacancies occur earlier than projected. In that event, SOCWA may need to hire experienced staff at more mid-level pay scales and in turn may experience higher labor costs than planned.
 - b) Total Full Time Equivalent FY 2017-18 is 65 64 positions. In FY 2017-18 four positions (4) were added to address needs in SCADA systems, accounting, analyst (not hired) and administration (funded for 1 year). For FY 2018-19 administration will continue as FTE and analyst position is eliminated. Operations will add 1 FTE mechanic due to overlap in training needed for planned retirements in FY 2019-10 for a total of 66 positions in 2018-19. In FY 2019-20 total positions will return to 64 due to 2 O&M department retirements.
 - c) Other expenses (Non-Labor), including new initiatives:
 - i. Engineering budget for investigation of Asset Management Program options
 - Environmental compliance budget for Tri-Annual California Bight Ocean Monitoring and Testing \$81,630
 - iii. Completion of Cost of Use Study
 - iv. Outfall Tie in Cost Study

- 4. Operations and Environmental Compliance and Safety budgets were built at the Project Committee level.
 - a) Payroll costs were allocated to Project Committees based on future projections of where each individual employee would work. Individual employees support multiple Project Committees/Work Sites; therefore, percentages were used to allocate time by project committee.
 - Non-labor costs are based on prior actuals, contractual agreements, expected inflation increases, current year run rates and projected impacts from capital projects.
- 5. Engineering costs were split between Capital projects and Administration and other Non-Capital Engineering work based on how the department spends time.
- 6. In addition to liquid flow rates, solids loading, and common costs (typically shared equally between liquids and solids), labor time spent (as actually occurred in 2017-18 FY) is used to calculate some expense allocations to agencies. As an example, O&M labor expended for work on Co-Gen engines at JBL and RTP during 2017-18 will be reduced due to the completion of the construction and labor hours are projected for the budget as shifting to perform O&M on the liquids side of the plants due to the planned construction in 2018-19.

Projected Operational Cost changes are based on:

- a) Flows and loads based on Calendar Year 2017, except for PC2 (JBL) solids which will be based on the past 3-year average and potential additional information from SMWD and MNWD regarding the Oso-Trabuco line flows and operational decisions at plant 3A.
- b) CPUC projected rate increases are used to calculate most utility cost changes, and for CoGen engine operations actual operating results will be used as the basis for projected for electricity and natural gas costs.
- Cogen engine maintenance costs will be increased to match cost of manufacturer recommended maintenance.
- d) Inflation will be assumed at 3% for electricity, chemicals, fuels and petroleum products.
- e) Other non-labor expenses will be inflated at 2%.
- f) Long-term contract rates will be used for contracted supplies and services.
- g) Fuel increases are based on contractual agreements and current run rates.
- 7. Payroll costs include salaries and wages plus fringe benefits.
 - Labor inflation assumed a 2.7% Cost of Living Adjustment (COLA) in July for all employees

- b) An average 3% merit increase for all employees
- c) PERS retirement was calculated using the CalPERS provided "Employer Normal Cost Rate", 10.609%, 9.409% and 6.842%, which is applied to Payroll dollars.
- d) PERS unfunded liability (UAL) will be provided by CalPERS for Tier 1, Tier 2 and Tier 3 plans.
- e) Retiree Health (PARS) savings, was will continue at \$250,000 (10-year level pay approach), and is included in the fringe benefit rate.
- f) Retiree Health "Pay-AS-YOU GO" premiums are based on actual individual current rates provided by CalPERS plus 2% for the out years. The employer co-pay will continue under the current MOU at 95% for all plans.
- g) Medicare tax, holiday, vacation, sick and personal time were calculated based on the individual employee earning rate.
- h) Group medical insurance is based on actual individual current rates and the Employer co-pay will continue under the current MOU at 95% for all plans.
- i) PERS Medical insurance increases were offset by benefit change to 95%. Standard increases beyond 2019 are projected at 10%.
- j) Fringe benefit rate is ____% up significantly from FY 2016-17 based on accumulation of more information on cost experience. The actual rate of ____ in FY 2017-18 includes costs of accrued leave, group insurances (medical, disability, retiree health), PERS, PARS savings, and other paid benefits (unemployment, workers' compensation, bereavement pay)
- k) Pay for time worked rate is _____% (Direct labor Utilization net of PTO, paid time off) and is projected based on actuals as of December 2017.
- 8. Administration expenses are a part of the O&M costs of each agency and are detailed in the Budget document for the purposes of allowing member agencies to track administrative costs and evaluate trends in administrative expenses. Administration expenses (net of General Fund) and other "Consolidated" expenses are applied to Member Agencies based on a Total Cost Input (Cost identified to a Project Committee and in some cases a member agency). Extraordinary and one-time O&M expenses having no administrative impact (examples: intermittent spikes in chemical or electrical costs or emergency labor), are deducted from the Total Cost Input base. This is a FAR (Federal Acquisition Regulation) methodology. This approach was confirmed appropriate by outside engineering/financial review of Carollo Engineering in FY '15/'16. This approach assigns administrative costs to the agency incurring the cost.
 - a) Insurance costs are projected at:
 - i. CSRMA general liability 5-10% and other: Property 10-15%, Liability (PLP) 5% and Commercial Crime 5%.
 - ii. Workers' Compensations estimated 10% increase.

- b) Training budgets are expected to increase due to new employee needs (SOCWA is now 30% with 5 years or less experience due to retirements).
- 9. The General Fund Budget will be allocated in accordance with the approach agreed to by the Board of Directors during the FY 2017-18 Discussions (need to complete). General Fund Expenses are added back to Administration for the purposes of tracking costs and showing total Administration by agency and project committee. Historically, General Fund expenses are estimated to cover costs of Board Meetings and staff costs of compliance with legally required JPA reporting and filing requirements (Form 700, Annual JPA Statements, etc.).
- 10. The following 14 points approved by the Board from the Allocation Working Group are continued in the FY 2018-19 Budget:
 - a) The budget funds continuous metering of flows upstream of the JBL Plant from the OSO Trabuco and San Juan sewer trunk lines
 - b) Permit fees for the Pretreatment Program are levied as a fixed charge and allocated to the PC 8 Budget
 - c) For PC 5 and 24 engineering costs are allocated based on ownership capacity.
 - d) Individual agencies will pay Director meeting attendance fees either through SOCWA or directly to their participating director
 - e) Engineering studies will continue to address future capital and capacity needs of the treatment plants
 - f) JBL Effluent Pump Station (EPS) costs will be placed in PC 2 liquids ownership category
 - g) Continue PC 2 and 15 water use allocations: 30% from solids to liquids for PC 2, 70% from common into liquids PC 15
 - h) Continue PC 15 and 17 bleach use allocations: 4% from liquids to AWT for PC 15, track system changes for PC 15 and 17
 - i) Continue PC 2 and 17 odor control allocations: 39% from solids to liquids for PC 2, 42.1% from liquids to solids for PC 17
 - j) Continue PC 17 Ferric Chloride allocations: 40% from liquids to solids
 - k) Continue PC 15 and 17 Polymer allocations: 57% from AWT to liquids for PC 15 and 17.8% from liquids and AWT to solids for PC 17
 - Continue certain PC 24 costs as fixed costs: engineering misc., legal, off-shore monitoring, inspections/port cleaning and misc. equipment.
 - m) PC 2SO (12) excludes ETWD.

General Approval Information:

All O&M Budgets since inception reflect the costs of direct use and costs allocated by capacity ownership for capital improvements, repairs and replacements necessary to operate within legal compliance requirements and accepted industry standards.

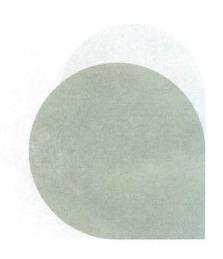

The signature authority levels authorized for expending the FY 2017-18 budget are in conformity with SOCWA's Uniform Purchasing Policy and Procedures, policy number, 6.2015.01, as approved by the Board on March 5, 2015 and as revised for clarification on December 28, 2017.

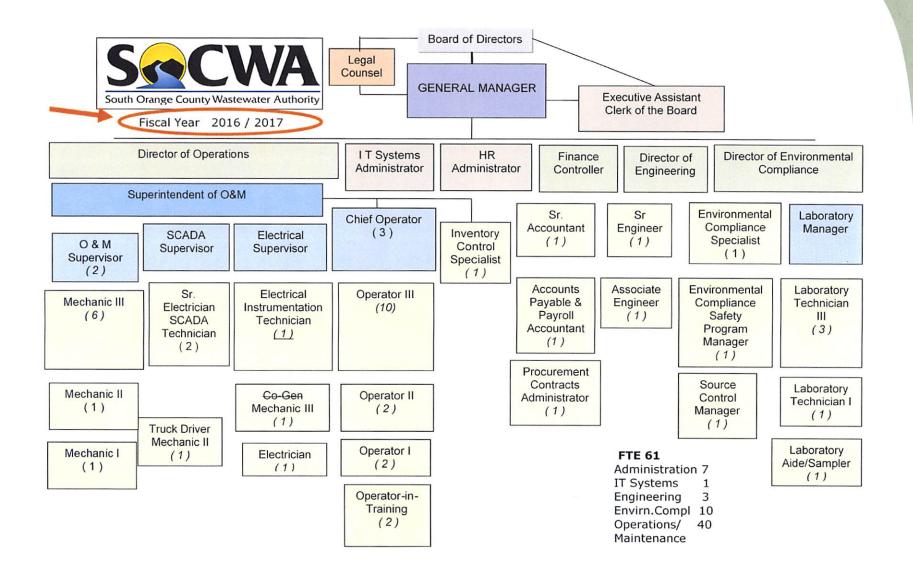

Board approval of the Budget authorizes the above budget assumptions. Staff is authorized to contract for services, acquire supplies and pay vendors and expenses within the Functional Departments and Project Committees. Staff is authorized to follow the Budget and expend the amounts therein stated consistent with the Uniform Purchasing Policies and Procedures.

SOCWA FY 2018/19 Budget Initiatives

IT

- A) Development of IT gap analysis to assess existing SOCWA systems [as to age, lifespan, vendor support, attributes and potential for integration of data (financial information systems, purchasing, inventory, maintenance management)] against needs and options. \$30,000
- B) Contracted IT support (management services) \$40,000

Engineering/O&M

- A) Develop Asset Registry as a data base to integrate sets of SOCWA asset information from engineering, operations and finance into a usable tool for planning and further use in asset management goals. \$75,000
- B) Utilities mapping as a pilot program to develop an AutoCAD based map of underground and other utilities using as-builts, historical knowledge (staff level capture), photographs formatted to incorporate into a GIS system. Future goal would be to include documentation, processes and procedures. \$60,000
- C) Pursue an RFP for Innovative Biosolids Technology. \$150,000

Administration

- Staff will not be hiring Environmental Analyst Position and will replace it by funding the Executive Assistant to the General Manager as a FTE within Administrative Budget.
- Legal Expenditures are anticipated to increase due to change in General Counsel. Costs are funded in Administration and moved over the applicable agency or Project Committee when incurred. YTD actuals for legal work FY 2017-18 are over-budget for Administration due to State Audit related costs. Project Committee legal expenditures are over budget primarily due to delays in construction and contracting expenses. The total legal budget FY 17-18 is \$102,216 with YTD 12/31/18 actuals at \$140,712. It is anticipated in FY 18-19 that overall legal should be set at \$225,000 due to likely substantial increase in hourly rates for services, ongoing general counsel support of the MNWD information requests, and anticipated review of the JPA and Project Committee agreements.

Agenda Item

Legal Counsel Review: N/A

Meeting Date: February 13, 2018

TO: Finance Committee

FROM: Betty Burnett, General Manager

STAFF CONTACT: Mary Carey, Finance Controller

SUBJECT: Financial Matters for Year-to-Date December 31, 2017

Summary/Discussion

SOCWA staff is directed by SOCWA Investment Policy (approved December 7, 2017) to provide the schedule of cash and investments to the Board of Directors monthly.

The remainder of the financial reports are provided no less than quarterly to the SOCWA Finance Committee and following Finance Committee review would be recommended to the Board of Directors to be received and filed

The delay in providing the attached information was due solely to staffing resources addressing two audits from June 2017 to December 2017. Note that Exhibits D, D1, and E2 are revised from the drafts presented at the February 1, 2018 Board meeting. This information is for review, comment and recommendation from the Finance Committee at its February 13, 2018 meeting.

The reports included are as follows:

- a) Summary of Disbursements
 - Five Months, August 2017 through December 2017 (Exhibit A)
- b) Schedule of Funds Available for Reinvestment (Exhibit B)
- c) Schedule of Cash and Investments (Exhibit C)
- d) Capital Schedule (Exhibit D REVISED)
 - Capital Projects Graph (Exhibit D-1 REVISED)
- e) Budget vs. Actual Expenses:
 - Operations and Environmental Summary (Exhibit E-1)
 - Residual Engineering, after transfer to Capital (Exhibit E-2 REVISED)
 - Administration (Exhibit E-3)
 - Information Technology (IT) (Exhibit E-4)

Fiscal impact

Monthly Disbursements are as follows:

- August 2017 disbursements were \$3,095,864
- September 2017 disbursements were \$1,502,549
- October 2017 disbursements were \$2,455,730
- November 2017 disbursements were \$3,140,089
- December 2017 disbursements were \$2,497,032
- Total disbursements for 5 months, August through December, were \$12, 691,264.

By Direction of the Finance Committee, the Finance Committee Chairman would review the monthly disbursements.

The above transactions are summarized by Project Committee in the attached Exhibit A.

The attached Exhibits B, C, D and E are informational reports only.

Recommendation

The Finance Committee recommends to the Board of Directors to receive and file the Year-to-Date December 31, 2017 financial reports.

- (1) Overtime costs have been higher than expected due to a series of nighttime and bypass construction activities for capital projects.
- (2) Staffing has been required for elevated holiday flows and loads. These line items will be increased in future years.
- (3) The new engine projects are starting up later than anticipated and affecting the electricity and gas budget line items.
- (4) Recycled water purchases were required during a construction project to replace the process water controls system at CTP.
- (5) Ferric chloride use has increased more than expected to comply with both new engine gas cleaning system requirements.
- (6) Annual pretreatment and AWT testing completed at the beginning of the FY.
- (7) Several older vehicles required unanticipated larger repairs. Expenses are expected to level out for the FY.
- (8) Recruitment costs related to retirements. No additional recruitment is anticipated for the FY.
- (9) Training expenses due to new hires costs related to retirements.
- (10) & (11) Costs were incurred to replace the engineering trailer and modify the RTP lab staff work space.
- (11) Costs were incurred to replace the engineering trailer at JBL. Expenses are expected to level out for the FY.
